1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 2 and 4-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The last line of claim 1 is indefinite because it is not certain as to what is in the plane of the outlet opening. The last line also appears to be redundant to the amendment on line 8.

4. Applicant cannot rely upon the foreign priority papers to overcome this rejection because a translation of said papers has not been made of record in accordance with 37 CFR 1.55. See MPEP § 201.15.

5. Claims 1, 2, 4-12 and 14-20 are rejected under 35 U.S.C. 102(e) as being anticipated by WO 2004/000066 Heukamp. Heukamp discloses a fluid dispenser head 1 that cooperates with a dispenser member disposed along the 15 axis on a fluid reservoir that attaches to the base of 11 including a fluid duct with an inlet adjacent 10 along the axis 15 and an outlet dispensing orifice 3 located on the distal end of the rotary portion 4, a closure means that includes a closure member plug 7 that plugs the outlet 3 in the plane of the outlet, with a rotary portion 4 that rotates to an open position in figure 2 and a closed position in figure 1, a non-rotary portion 11, and displacement means 9. In regard to claims 9, 11 and 15-20, Heukamp discloses a connection element 12 and an anchor element 6 because it threads onto and holds 4 in place. In

regard to claims 9, 10 and 15-20, Heukamp discloses a connection element 8 and an anchor element 12.

6. Claim 13 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims and if the 35 U.S.C. 112, second paragraph rejection is overcome.

7. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. 7,464,839 is the U.S. version of WO 2004/000066 Heukamp.
